

Week Four: January 28, 2012 – February 3, 2012

The fourth week has been absolutely superb. The new website has gone live! The URL is the same as the old website. We encourage everyone to go

and visit the website! There are an abundance of new features including a how-to guide to start a team, make a website, etc. The website includes direct links to the calendar and blog. It also includes information on past competitions.

Animation has made a timeline for the next two months. They have narrowed down all their brainstorm ideas and are excited to get working.

CAD team has started version two of the robot. They are working on any of the

problems of on the robot.

The Communications team is continuously working on all their various projects.

Fundraising team is now selling *FIRST* light bulbs. These light bulbs are LED. LED light bulbs are “green” light bulbs with a 25,000-hour life. They come in 40w and 60w. Contact Elizabeth Sites if you have any questions.
