

The Odometer

Lee's Summit High School #1730

Week 3: Moving Forward

This week Team Driven has accomplished many important goals. Prototyping has been completed and the team has decided on a turret shooter for scoring on other teams. CAD work is progressing quickly and several assemblies have been finished this week. The team is beginning to construct the drive train and the rest of the robot will soon follow.

Animations team has completed their story board and finished modeling their characters. They will begin animating next week.

Upcoming Events

~ The three Lee's Summit Robotics teams will be hosting a banquet in March. You will be receiving more details at a later date so mark your calendar.

~ The three open houses on February 1st have been scheduled. The new times are:
LSHS - 1:00-2:30
West - 2:30-4:00

There are still opportunities to provide meals for Team Driven members at the build site. For more information please contact Janice Crance 525-6149 or email her at rcrance@kc.rr.com.
